

FOR IMMEDIATE RELEASE – RecordMax President Selected by Industry Trade Association as Presenter at Educational Workshop

July 22nd, 2008 – Birmingham, Alabama and Jackson, Mississippi

The RecordMax Companies are pleased to announce that Jim Teske has been selected as a key presenter on several topics at a two day workshop for records center owner/operators by a committee within PRISM International, the industry trade association for commercial records centers and information services professionals.

PRISM Announces Educational Workshops on Imaging and Records Center Operations

In the June, 2008 Issue of InFocus, PRISM International's Board of Directors confirmed its authorization for two new workshops to be held in the latter part of 2008. The first workshop, entitled "Fundamentals of Imaging", will be held on October 6-7, 2008 at the Hyatt Regency O'Hare in Chicago. The second workshop, entitled "Fundamentals of Records Center Management", will be held on November 3-4 at the Embassy Suites in Orlando, FL. "These workshops are an opportunity for PRISM International members and prospective members to gain knowledge and familiarity with imaging and hard copy records management" said PRISM International President Neal Goldman. "In providing this type of workshop, we are creating an opportunity for more intense education and networking for a specific service delivery area. It is a completely different type of event that provides more detailed and deeper education on a single topic" he added.

Jim Teske Selected as Key Presenter/Educator for Orlando Operations Workshop

Planning for the Orlando Operations Workshop has occurred largely within the Task Group 7 on Membership in which Jim Teske, RecordMax President, has participated for years. The functional areas of the Operations Workshop include economics, transitioning from related businesses, facility planning, codes compliance, records center operations, market analysis & prospecting, contracts and legal issues, PRISM International resources, an open question forum and a tour of an operating facility. Mr. Teske will lead or participate in three separate sessions at the workshop. The first is a panel to help owners and operators of other businesses develop strategies when transitioning into the records center business. Jim will also lead a second session exploring how software and related products and tools including bar coding, RFID tags, hand scanners, and reporting are used to manage the records center facility. And he will offer a case study based on disaster recovery involving work disruption caused by a tornado. This session includes preparations taken prior to the disaster, response strategies, client communication strategies, business resumption, and lessons learned. For more information on these workshops, contact PRISM Intl at (800) 336-9793.

About The RecordMax Companies

RecordMax is a proven leader in providing secure information storage and management services to law firms, hospitals, businesses, government entities and other professional organizations.
