

FOR IMMEDIATE RELEASE – RecordMax New Orleans Adds a New Team Member, Promotes Another Team Member & Invests in Systems Training

July 25th, 2008 – New Orleans, Louisiana

The RecordMax Companies are excited to announce an addition to the local New Orleans team, a promotion from within the family and an investment in training for our New Orleans operation.

New to the New Orleans Customer Service Team

We're very excited to announce the addition of **Kristin Bauer** to our Customer Service team. Kristin, a native of the New Orleans area, has an impressive background that includes customer service, accounting and human resources. Kristin also has experience in the logistics field with drivers that used similar handheld computers as are used at RecordMax for capturing data in front of customers. Lastly, she has a strong affluence with computers both through an education at ITT Tech as well as through practical on the job experience. We hope you'll welcome Kristin when you call for services...or feel free to contact her directly at (504) 363-4110 or kbauer@recordmax.com.

A Promotion to Lead our People on the New Orleans Records Center & Delivery Teams

We're also very excited to announce the promotion of **Patrick Hughes** to the position of Manager, New Orleans Facilities and Logistics. Patrick has been with the company since before RecordMax made the acquisition of Data Management Archives over a year ago. He has valuable experience both working in our Records Center as well as having been a key driver for the company making pick-ups & deliveries in the field. Patrick's background includes service in the military where he managed a group of twelve soldiers in a warehousing environment. Congratulations to Patrick for this well deserved promotion...he can be reached at (504) 363-4110 or phughes@recordmax.com.

Other Activities – Training from an Industry Expert in Systems and Business Practices

The growth from new customers and additions to our team mean that RecordMax had an opportunity to bring in an expert to assure everyone is well trained and ready to put all of our technology tools to work for customers. **Neil Hunt**, an industry consultant out of Miami, FL that works with commercial records centers literally around the world, visited RecordMax New Orleans this month for a full week of introductory systems training for Kristin, advanced training for customer service team members **Melrose Hauptman** and **Yolanda Welsh** as well as provide guidance to our records center & logistics teams. These types of events bring renewed enthusiasm to the work environment and ultimately a number of benefits to our customers. Thanks Neil!

About The RecordMax Companies

RecordMax is a proven leader in providing secure information storage and management services to law firms, hospitals, businesses, government entities and other professional organizations. Our archival services range from the protection of business records, files, computer tapes and other sensitive media to digital storage of electronic documents, images, email and web content. Enjoy convenient and professional delivery and retrieval solutions...we treat every item we handle just like the largest of shipping companies; with barcode based tracking technology and portable receipt printing by the drivers that bring information assets right to your door.

The resources and experience of our management combined with hiring the best possible leaders for local customers assures confidence, consistency and quality from the people our customers have come to trust. With a growing number of locations around the Southeast, **RecordMax** stands ready to be a trusted part of your information management team.

You'll be glad you chose the people, the facilities and the business solutions at **RecordMax**.
