

FOR IMMEDIATE RELEASE – RecordMax Adds Premium Shelving Array to Address the Needs of New Orleans Area Businesses

February 26th, 2009 – New Orleans, LA

RecordMax New Orleans is pleased to announce the completion of a new shelving system array that adds nearly 100,000 cubic feet of available hardcopy records capacity to our existing facilities.

“When we entered the New Orleans marketplace almost two years ago via the acquisition of Data Management Archives, we knew we were acquiring a strong foundation yet we also recognized that becoming the area’s premier provider would require investments in people, logistics and storage capacity” offered Jim Teske, RecordMax USA President. “The success of our business in Greater New Orleans has afforded us with opportunities to add great people. And we upgraded our fleet about 8 months ago. So with the first class upgrades made to our business systems and telecom infrastructure that began in the fourth quarter of 2008, the new shelving helps us assure we’re right where we need to be in delivering on promises and exceeding expectations with customers.”

The new capacity is intended to address the continued rapid growth that began in early 2008 (and is expected to continue throughout 2009), assuring available pre-installed premium shelving for both existing customers and several larger prospects that have recently signed or are in negotiations to join the RecordMax family. With other available shelf space that existed prior to the new installation, RecordMax customers will enjoy the smooth operations associated with a facility designed to accept growth without unnecessary interference or interruption. Future additions can include adjacent space already protected under long term leases.

REB Storage Systems Coordinates Project

Long time business partner **REB Storage Systems International**, (Corporate offices in Chicago, IL) received a call from RecordMax in mid-2008 and engineers started working on formal plans last August. Matt Baker, Scott Hamling and David Eggert handled management of the onsite installation crew...making numerous trips both planning and managing the project; with one of these experienced project managers onsite at all times. RecordMax has worked with REB (www.rebsteel.com) for many years including on significant installations over the last 18 months in each of our markets: Chattanooga, TN; Jackson, MS; Mobile, AL and New Orleans. REB Exec. V.P. Lori Palmer ultimately has responsibility over RecordMax as a customer...and she’s earned a long time relationship based in no small part on the quality of work and experience of the REB team.

About The RecordMax Companies

RecordMax is a proven leader in providing secure information storage, retrieval, imaging, shredding & data protection services to law firms, hospitals, businesses, government entities or other professional organizations.
