

FOR IMMEDIATE RELEASE – RecordMax Completes New Building for Premium Records Storage Services on North Jackson, Mississippi Campus

March 1st, 2009 – Jackson, MS

RecordMax is excited to announce the completion of major facility addition on its North Jackson, MS campus. The new construction, a planned expansion accelerated by other events in the last year or so, adds nearly 300,000 cubic feet of available hardcopy records capacity to our existing facilities.

“We’re very pleased with the results of a project that really started over a year ago” stated Bob Lloyd, RecordMax CEO. “We knew our continued growth in Greater Jackson would mean that we would need more capacity sometime in 2009. The tornado event in April, which probably made us even stronger and proved we could respond effectively to the largest of business interruptions, accelerated and modified our plans slightly. Good planning and some good business partners have resulted in a great new facility. I know the team here is really excited about having new offices and to have the new space available for our customers” Lloyd added.

Having built so many storage properties over the years for both RecordMax and sister company StorageMax provided Lloyd with a wealth of experience for the newest building. The design of the building was a collaboration between Lloyd and Jackson area architect David Day. The construction on the project was managed by local Jackson firm Storage Park Construction. The design and installation of internal storage systems including racking, shelving and other equipment was managed by REB Storage Systems out of Chicago, Illinois. And fortunately, more real estate remains available on the North Jackson RecordMax/StorageMax campus for future expansion.

Features of the new space include high grade metal construction, climate control throughout warehouse, premium security and surveillance equipment, specially designed loading and logistics considerations, perimeter fencing, generator backup system and high speed data connections.

RecordMax will be adding a new facility tour section to its website affording customers the opportunity to see various stages of the project as well as the completed result. And similar online facility tours are planned for other RecordMax operations in New Orleans, Mobile and Chattanooga at www.recordmax.com/recordmax-locations.htm.

About The RecordMax Companies

RecordMax is a proven leader in providing secure information storage, retrieval, imaging, shredding & data protection services to law firms, hospitals, businesses, government entities or other professional organizations.
