

***FOR IMMEDIATE RELEASE – RecordMax Makes/Plans Presentations on the Fundamentals of Retention Scheduling and Business Continuity & Disaster Recovery***

**March 17<sup>th</sup>, 2009 – New Orleans, LA and May 8<sup>th</sup>, 2009 – Daytona Beach, FL**

**RecordMax** is pleased to confirm presentations at the Greater New Orleans Chapter of ARMA International on the Fundamentals of Records Retention Schedules and at the PRISM International Annual Conference and Exposition Planning in Daytona Beach, Florida on Business Continuity & Disaster Recovery..

"We're very pleased to have been invited to make several presentations recently...its something that takes a lot of preparation but openly I kind of enjoy public speaking" offered Jim Teske, President of RecordMax USA. "We're very active in both associations...with ARMA being a key association for our customers and PRISM being the primary trade association for commercial information storage and management firms. I feel fortunate to have received some nice feedback for the program at the recent ARMA meeting and will work hard to make a solid showing in Daytona" Teske added.

Greater New Orleans Chapter President David Honeman of the law firm Plauché Maselli Parkerson LLP contacted RecordMax General Manager Gary Cooper several months ago discussing several options for programs including retention schedules. Fortunately Teske has made numerous presentations on the topic for Lorman Education Services, a leader in continuing education seminars for business professionals across the country. Honeman and Teske worked together with the local chapter board on approval of the general outline for the presentation and then RecordMax assisted in maximizing attendance by sending invitations to its New Orleans area customers and by sponsoring 50% of the meeting costs for those customers that registered.

The presentation at the upcoming PRISM International Annual Conference and Exposition in Daytona Beach (<http://www.prismintl.org/upcoming.php>) on Business Continuity & Disaster Recovery Planning uses the RecordMax tornado event in Jackson, MS last year as a case study. A similar presentation was made back in October in Orlando, Florida for a PRISM seminar for new entrants into the industry.

***About The RecordMax Companies***

**RecordMax** is a proven leader in providing secure information storage, retrieval, imaging, shredding & data protection services to law firms, hospitals, businesses, government entities or other professional organizations.
