

FOR IMMEDIATE RELEASE – RecordMax New Orleans Expands Facility Capacities for Open Shelf Medical Records and Radiology Film

September 14th, 2009 – New Orleans, LA

RecordMax New Orleans continues to grow and prosper in the Crescent City. Construction has begun on a new three level shelving system for the storage of open shelf medical records and radiology film jackets with all new systems, equipment and facility upgrades scheduled for completion sometime next month.

The facility expansion has been triggered through the signings of several large hospitals and medical centers in the Greater New Orleans area.

One new healthcare client will send in nearly 1,000,000 patient charts and film jackets as well as over fifteen thousand cubic feet of boxed administrative records. This hospital transition will be meticulously managed. Every folder/jacket will receive separate unique RecordMax barcode labels. Special custom programming and barcode scanning equipment will automate the capture of patient names, medical record numbers and release dates. Advanced “list comparison” technology from O’Neil Software (www.oneilsoft.com) will assure the accurate receipt and matching of all incoming charts to physical barcoded shelf locations. Secure servers will allow authorized hospital administrative personnel to track, edit and order medical records and other documentation online.

Via the RecordMax affiliation with National Records Centers (www.nationalrecordscenters.com), up to three additional major hospitals or medical centers will also be brought online with RecordMax in the New Orleans area (along with up to eight more hospitals or surgical centers in other markets) giving these healthcare providers access to similar archival services as well as the company’s logistics, imaging and shredding solutions.

The latest New Orleans facility build-outs include high grade steel shelving systems (provided by REB Storage Systems - www.rebsteel.com) as well as significant investments by in personnel, new equipment, vehicles, technology, lighting/electrical, air conditioning, special climate doors and security system upgrades to assure the absolute satisfaction of customers.

About The RecordMax Companies

RecordMax is a proven leader in providing secure information storage, retrieval, imaging, shredding & data protection services to law firms, hospitals, businesses, government entities or other professional organizations.
