

FOR IMMEDIATE RELEASE - RecordMax Acquires SpaceSavers Document Storage and District Archives of Mobile

July 4th, 2007 – Jackson, Mississippi and Mobile, Alabama

RecordMax USA, LLC announced the acquisition of the assets of SpaceSavers Document Storage and District Archives of Mobile; a local leader in business records storage, data storage, document shredding, business information solutions, health information management, asset storage, fulfillment, project management and other business services for customers in South Alabama.

"We feel incredibly fortunate to have secured South Alabama's largest and most experienced information storage and management business" offered Jim Teske, president of **The RecordMax Companies**. "The customer service team is outstanding and the people are so committed to doing what they say they're going to do. That's so much a part of our company culture. Similar to our new location in New Orleans, this expansion includes a long term ongoing occupancy of real estate that has made it through recent storms without any impact on client information deposits. We're talking about a newer building outside the flood zone but with easy access to delivering requested files or data back to our customers."

Greater Mobile area customers will continue to enjoy the services of Operations Manager Gloria Hayes; who joined the **RecordMax** team immediately upon completion of the transaction. Gloria offers old fashioned care, consistency and a very high level of commitment. Customers will enjoy the same voices, faces and trusted relationships on top of the new added resources, services and complimentary presence of a market leader serving a number of other nearby cities.

The **RecordMax** effort in South Alabama is focused on a number of immediate priorities including enhanced communications with customers, introduction of new technologies for online management and handling of physical and electronic information, more active participation in data security and/or shredding services and offering complimentary business fulfillment solutions to current and prospective customers (via the storage and distribution of print media, forms and publications).

The expansion into Mobile represents the third **RecordMax** acquisition of 2007 and gives the company an increased coverage of the Southeast Region. Enhanced productivity and the sharing of ideas between managers and team members continues to generate high levels of enthusiasm among both team members and customers.

About RecordMax

RecordMax is an emerging leader in providing secure information storage and management services to law firms, hospitals, business professionals, government entities and other professional organizations. Our archival services range from the protection of business records, files, computer tapes and other sensitive media to digital storage of electronic documents, images, email and web content. Enjoy convenient and professional delivery and retrieval solutions...we treat every item we handle just like the largest of shipping companies; with barcode based tracking technology and portable receipt printing by the drivers that bring information assets right to your door.

The resources and experience of our management combined with hiring the best possible leaders for local customers assures confident, consistency and quality from people our customers have come to trust. With a growing number of locations around the Southeast, **RecordMax** stands ready to be a trusted part of your information management team.

You'll be glad you chose the people, the facilities and the business solutions at **RecordMax**.
