

***FOR IMMEDIATE RELEASE – RecordMax Forms New Division for Imaging and Digital Archiving***

August 31<sup>st</sup>, 2007 – Jackson, Mississippi

**The RecordMax Companies** announced the formation of a new division dedicated to helping customers assure they can truly manage information in any format. **RecordMax Imaging USA, LLC** and **RecordMax Imaging of Jackson, LLC** offer far more than just document scanning; these new entities are intended to take RecordMax Digital Information Management Solutions to a whole new level.

The effort has included a thorough review of our current systems as well as solutions developed by numerous other leading vendors, software companies, hardware manufacturers, digital archiving experts and server/collocation facility operators. The end RecordMax result is a “best of brands” offering to customers.

“Our sole focus is to help people and organizations gain control over information assets; both from a cost management standpoint as well as it relates to that delicate balance between control and efficiency” offered Bob Lloyd, CEO of **The RecordMax Companies**. “We have some great tools that can help managers make educated decisions about whether to convert documents to images or to just keep records as paper files. The new systems we are investing in these days represent true market leaders with unparalleled credentials in imaging technologies and electronic information management. My hope is that people will consider taking a test drive because these products sell themselves.”

Like any other major enhancement or offering, **RecordMax** will roll out the solution in stages. Growth in digestible chunks results in a much more solid foundation as additional rooms get added to a house. Informal conversations about **RecordMax Imaging** have started pushing our people to get things rolling for several projects involving larger customers in healthcare and education. While we’re getting started initially at our corporate headquarters in Jackson, you should expect these solutions in all of our markets over the next 90 days or so.

***About RecordMax***

**RecordMax** is an emerging leader in providing secure information storage and management services to law firms, hospitals, business professionals, government entities and other professional organizations. Our archival services range from the protection of business records, files, computer tapes and other sensitive media to digital storage of electronic documents, images, email and web content. Enjoy convenient and professional delivery and retrieval solutions...we treat every item we handle just like the largest of shipping companies; with barcode based tracking technology and portable receipt printing by the drivers that bring information assets right to your door.

The resources and experience of our management combined with hiring the best possible leaders for local customers assures confident, consistency and quality from people our customers have come to trust. With a growing number of locations around the Southeast, **RecordMax** stands ready to be a trusted part of your information management team.

You’ll be glad you chose the people, the facilities and the business solutions at **RecordMax**.
