

Premium Data Destruction Containers & Security Consoles

Formica Locking Security Consoles

These consoles are pieces of furniture that can fit into your office setting. As a space saver, its counter-top feature enables you to place a fax machine or other office supplies and equipment on top of the document destruction console. The security cabinet is constructed of durable easy-to-clean melamine and laminated to high-density furniture-grade particle board; is lockable with a door slot at the top front of door with an interior security baffle and locks; includes a durable nylon bag; is strengthened by a heavy-duty hinge for added door strength and is reinforced with reduced-parts design for easy assembly and longer life.

Rolling Data and Destruction Containers

Offering a convenient, secure collection of confidential records, container features of our 38, 65, 96 and 200 gallon containers include keyed Roto-Lock for tamper-resistant security; narrow paper slot, designed to prevent unauthorized entry; oversized wheels for easy mobility; injection molding for extra strength and durability; smooth surface inside and out for easy cleaning; comfortable, ergonomic handles with 2" x 5" opening for easy gripping; long lasting irrigated lid hinges; sealed lids to keep in odors.
